

Roses

A rose in full bloom stops you in your tracks. It steals your heart with its paper-delicate petals and lures you in with its heady, romantic scent. Once you're truly captivated it's hard to resist filling your garden with the sumptuous butter yellows, sugar-spun pink, graceful white and blood red petals of this queen of flowers. We're in love with roses too, so we've got a variety here at Thorngrove Garden Centre to grace every spot in your garden.
